

LICENSE AGREEMENT ("Agreement") with an Effective Date of the date indicated by the last-to-sign party at the end of this Agreement, between INTERNATIONAL BUSINESS MACHINES CORPORATION, a New York corporation ("IBM"), and

a _____
corporation.

Each party has, or may hereafter obtain, the right to license others under the Essential Claims of patents and patent applications, and the other party desires to acquire a nonexclusive license under such Essential Claims of such patents and applications for certain products which are fully compliant with the Licensed Specification.

In consideration of the premises and mutual covenants herein contained, IBM and _____ agree as follows, wherein capitalized terms shall have the meaning set forth in Section 6:

Section 1. **License and Release**

1.1 Each party (as Grantor), on behalf of itself and its Subsidiaries, agrees to grant and hereby grants to the other party (as Grantee) a worldwide, nonexclusive, nontransferable license under its Essential Claims to make, use, import, sell, offer to sell, license (in the case of software), lease, and otherwise transfer Licensed Products. The foregoing license is effective for

upon receipt of the payment by IBM of the payment specified in Section 5. The foregoing license grant to IBM is royalty-free and fully paid up.

1.2 No license, immunity or other right is granted under this Agreement, either directly or by implication, estoppel, or otherwise:

- (a) other than under the Essential Claims;
- (b) to have Licensed Products made by a third party or to have the Licensed Product used by a third party for the Grantee;
- (c) with respect to any item other than a Licensed Product notwithstanding that such other item may be combined with or incorporate one or more Licensed Products;
- (d) to third parties acquiring any item from either party for the combination of such acquired item with any other item, including other items provided by such party, or for the use of any such combination even if such acquired item has no substantial use other than as part of such combination; or
- (e) for any use by Grantee or a third party other than in a compliant implementation of the Licensed Specification with respect to use in conjunction with a point-of-sale terminal.

1.3 The licenses granted herein also includes the right of each party (as Grantee) to grant sublicenses of or within the scope granted herein to Grantee's Subsidiaries (and Subsidiaries thereof) existing on or after the Effective Date. Each Subsidiary so licensed shall be bound by the terms and conditions of this Agreement as if it were named in place of the Grantee.

1.4 Subject to Section 2.2, below, each party, on behalf of itself and its Subsidiaries, irrevocably releases the other party, its Subsidiaries which are Subsidiaries as of the Effective Date and its and their respective customers, from any and all claims of infringement of any of the Essential Claims, which claims are based on acts prior to the Effective Date, which, had they been performed after the Effective Date, would have been licensed under this Agreement. The foregoing release is effective for

_____ upon receipt of the payment by IBM of the payment specified in Section 5. The foregoing release to IBM is royalty-free and fully paid up.

Section 2. **Term of Agreement**

2.1 Subject to Section 2.2, the term of this Agreement shall be from the Effective Date until the expiration of the last to expire of the Essential Claims.

2.2 In the event one party (as the "Suing Party") or any of its Subsidiaries brings a claim for patent infringement against the other party (as the "Defending Party") or any of its Subsidiaries in any court of competent jurisdiction, the Defending Party may immediately and retroactively suspend the license and release granted hereunder to the Suing Party and its Subsidiaries until such claim has been settled to the satisfaction of the Defending Party. In any discussion of a settlement of such patent claim, royalties alleged to be owing by the Suing Party for such patent infringement shall be offset by the fair market value of the license and release granted hereunder to the Suing Party and its Subsidiaries.

Section 3. **Warranty**

3.1 Each party represents and warrants that it has the full right and power to grant the license and release set forth in Section 1 and that there are no outstanding agreements, assignments, or encumbrances inconsistent with the provisions of said license or with any other provisions of this Agreement. **NEITHER PARTY MAKES ANY OTHER REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, NOR SHALL EITHER PARTY HAVE ANY LIABILITY IN RESPECT OF ANY INFRINGEMENT OF PATENTS OR OTHER RIGHTS OF THIRD PARTIES DUE TO THE OTHER PARTY'S OPERATION UNDER THE LICENSE HEREIN GRANTED. NEITHER PARTY MAKES ANY REPRESENTATION OR WARRANTY WITH RESPECT TO THE VALIDITY OR ENFORCEABILITY OF THE ESSENTIAL CLAIMS.**

3.2 Neither party warrants or represents that the other party will not require a license under other patent claims (whether licensable by the party or by third parties) to make, use, import, sell, offer to sell, license (in the case of software), lease, or otherwise transfer Licensed Products.

Section 4. **Payment**

4.1 As a fee for the license and release granted to

_____ hereunder,

_____ shall pay to IBM the total sum of five thousand dollars (\$5,000). Such sum shall be due upon the signing of this Agreement by both parties, shall be non-refundable, and shall be rendered by cashier's check made payable to the "IBM Corporation" and mailed to IBM in accordance with the instructions in Section 5. Payment shall be effective upon receipt by IBM.

No amendment or modification hereof shall be valid or binding upon the parties unless made in writing and signed by both parties.

6.7 If any section of this Agreement is found by competent authority to be invalid, illegal or unenforceable in any respect for any reason, the validity, legality and enforceability of any such section in every other respect and the remainder of this Agreement shall continue in effect so long as the Agreement still expresses the intent of the parties.
